

Testimonial

Comet Forli is a consumer electronics retail store based in Forli, Italy.

Comet Forli Leverages InVue's OneKEY ecosystem™ for Fast and Easy Remerchandising

PRODUCTS: IR4, ONEPOD, MODULAR ZIPS, SMART LOCKS

SITUATION

Prior to InVue, the customer was using a subpar third-party solution that was creating a poor customer experience. In addition to constantly giving off false alarms, it was not easy to remerchandise because of a cumbersome removal process with multiple keys to manage.

INVUE SOLUTION

With the support of Omnisint, an InVue trusted partner, Comet Forli installed InVue's OnePOD, which is part of the OneKEY ecosystem. Employees no longer have to manage multiple keys and can quickly and easily remerchandise or unlock products for nightly removal. Now that Comet Forli is a part of the OneKEY ecosystem their sales process has become more efficient.

Testimonial

“Thanks to the InVue technology, the customer can try the product without barriers. Additionally, the OneKEY ecosystem allows us to enable and disable all the devices and locks in the store.”

— *Mattia Pinazzi - Store Manager*
